

TWO-WAY SPLITTER IEC

Art.nr. 200-140

Short Description

The PTS-02KK allows for an easy creation of a second connection on a wall outlet. Both outputs of the splitter are broadband, meaning the entire frequency spectrum is transmitted.

This makes the splitter suitable for connecting cable modems and/or digital set-top boxes. By using high-quality components and materials, the splitter meets the highest standards and carries the Kabel Keur quality mark..

Properties

- For connecting a second TV or set-top box
- Frequency range from 5-1000 MHz
- Excellent high-frequency performance
- CE marking
- Kabel Keur – 3-year warranty

Specifications

Connection Type	F-connector
Type	Splitter
Frequency Range	5...1218 MHz
Max. Tap/Split Loss	3.8 dB
Max. Insertion Loss	3.8 dB
Number of Outputs	2
Remote Powering Possible	No
