

2-WAY F-CONNECTOR SPLITTER

Short Description

The 3D-Line consists of splitters and taps that are DOCSIS® 3.1-compliant with frequency range up to 1218 MHz. Thanks to the superior housing design, the products are fast and easy to instal. Optional Barrier® technology allows ingress/egress protection.

Mechanical specifications

- CATV 2-way Splitter
- 5 - 1250 MHz
- 2 x 3.7 dB
- Supports return path for interactive use.
- High durability.
- KabelKeur certified.

Specifications

- Frequency range up to 1218 MHz, Docsis 3.1 compliant
- Electromagnetic compatibility exceeds Class A+ (= Class A +10 dB)
- Very good intermodulation performance
- Superior housing design ensures fast and easy installation
- Optional Barrier® technology for ingress/egress protection
