

STRIPPING TOOL

Short Description

This UTP cable stripper is ideal for stripping UTP/FTP cables. The STRPUTP can be used for multiple cable types and can be adjusted for different cable diameters.

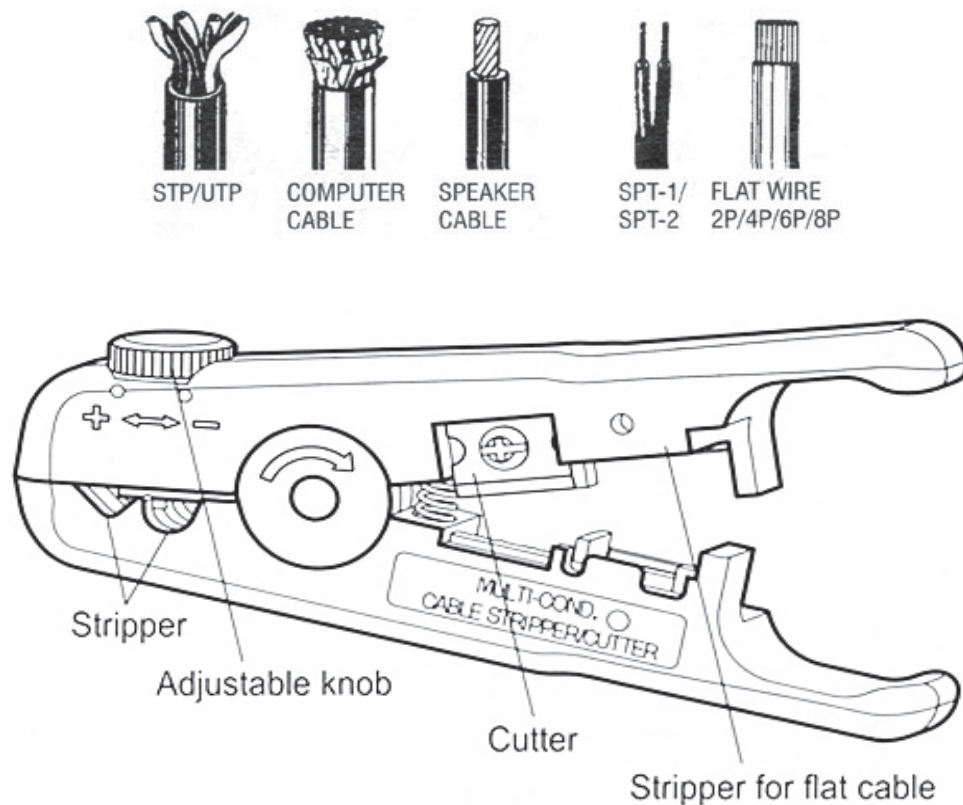

Specifications

- Type: UTP/FTP
- Extra: Cutting function
- Number of blades: 2
- Cable diameter: 4 – 6 mm

Connecting with quality!

Instructions

1. Flat Cable Stripper:

Place the cable between the stripping blades. Squeeze the handles together, keep the cable perpendicular, and then pull it out of the tool. Suitable for the following cables:

- Stranded telephone cable 2P, 4P, 6P, 8P, 10P, etc.
- Intercom/alarm wire / 2-core speaker cable 18-22 AWG
- SPT-1 electric wire

2. Round Cable Stripper:

Rotate counterclockwise 1-3 times, then open the jaws and remove the outer sheath. Suitable for the following cables:

- Round cable: Heavily insulated 12-14-16 AWG cable, SPT-2 electric wire
- Various solid modular wires: UTP, PT, data communication and network cable
- Multi-core cable: Insulation \varnothing 3.2 mm to 9.5 mm (1/8"-3/8")
- Automotive/heavy-duty cables up to max. 8 AWG

3. Adjustment Screw

For adapting to different cable sizes.
